

FIELD SHIELD

SUNSCREEN & INSECT REPELLENT

PROUDLY MADE IN THE
USA

The **Field Shield** is an individually packaged sunscreen and insect repellent personal wipe. This combination product was designed to reduce weight, save space, and maximize protection. Carrying two separate bottles may not seem like a lot but it can add as much as a pound to your load. The **Field Shield** allows you to bring what is required for a mission and eliminates the worry that you will find an exploded bottle of goo all over critical items. Not all threats come in the form of projectiles, with SPF 25 and 20% Deet your skin just got its own invisible sun and insect armor.

EASY OPEN PACKAGING ●
8" x 10" TOWEL ●
