

ANTIMICROBIAL
WARRIOR WIPES
HAND SANITIZER

ITW Military Products announces a new product, **WARRIOR WIPES** antimicrobial hand sanitizer. The **WARRIOR WIPE** is individually packaged and includes a dual purpose cloth wipe which is coarse on one side. The coarse cloth is designed to assist germ/bacteria removal, because if you are only using a liquid you are just spreading the germs around and not breaking through the thin film of dirt on your hands. This product was designed to reduce weight and save space inside a pack system. Instead of carrying the entire bottle of issued hand sanitizer, carry the **WARRIOR WIPES** for your next mission down range.

- EASY OPEN PACKAGING
- 6" x 8" TOWEL
